Official Code § 4-1303.03(a-1), the District of Columbia Child and Family Services Agency (“CFSA”) invites qualified Applicants to submit applications for grant funding to develop and implement parent education and support programs in an effort to expand the current range of child abuse and neglect prevention resources in the District of Columbia.

As the District’s population continues to diversify, there is a corresponding need to expand services to accommodate the varying needs of our community members. Parent Education or Support programs, for example, need adjustment or expansion to meet the needs of more culturally diverse families. The Parent Education and Support Project (PESP) will be implemented by a network of community-based organizations who are committed to engaging District of Columbia parents to help them acquire and internalize those skills that are necessary to build and maintain a healthy family. Effective parent models and family-centered interventions will promote increased protective factors and lead to a reduced incidence of child abuse and neglect. The Parent Education and Support Project supports evidence-based and promising practice models that are strength-based, family-centered and that combine both individual and group approaches. Capacity building grants awarded under the Parent Education and Support Project will fund time-limited services that are provided at no cost to parents or program participants. The Parent Education and Support Project is comprised of three (3) program areas: Family-Centered Substance Abuse Treatment and Parenting; Strengthening Families; and, Parent Support.

Selection and notification of grant awards is scheduled to occur no later than **May 15, 2010**. Up to five (5) grants will be awarded. Grants will range from \$45,000 to \$90,000 per award. **District of Columbia
Child and Family Services Agency (CFSA)**

Request for Applications (RFA)

FY 2010 Parent Education and Support Project

SECTION I: GENERAL INFORMATION

The Child and Family Services Agency (CFSA) has funds available to develop and implement the Parent Education and Support Project (PESP). CFSA will award up to five (5) grants. This initiative shall support the expansion of the District's current array of prevention resources supporting evidence-based and promising practice models of parent education and support that address age-, developmentally- and culturally-specific issues for caregivers. CFSA anticipates a minimum of 200 families to be served under the Parent Education and Support Project.

The goal of the PESP is to prevent the entry and reduce re-entry of families into CFSA through provision of specialized parent education and support models that promote protective factors within children and families that can reduce risk, build family capacity, and foster resilience. These factors lead to improved outcomes for children and parents and a reduction in the incidence of child abuse and neglect.

Grants may support the following program areas:

- 1. Family-Centered Substance Abuse Treatment and Parenting**
- 2. Strengthening Families**
- 3. Parent Support**

Services provided under the Parent Education and Support Project are designed for District of Columbia parents who may be at risk of involvement with CFSA or who are currently receiving services from CFSA. Applicants will submit proposals for one, or any combination of, the aforementioned inter-related grant program areas, which comprise elements of a strong system of child abuse and neglect prevention services. Applicants must clearly state for which of these three program areas, or which combination of program areas, they are applying, and must justify their selection of program area(s) in terms of documented needs associated with specified project goals and objectives.

Applicants shall specify whether they are proposing a primary, secondary or tertiary program, and whether the target population will include court-ordered participants. Applicants may propose a model that is part of a larger existing program within their organization. If the model proposed is one that the Applicant is already implementing, the Applicant must be ready to accept referrals and begin providing services within forty-five (45) days of notification of grant award. If the model proposed is new to the existing network of services, Applicants shall describe the planning phase and schedule for implementation over the course of the three-year grant period. No longer than four (4) months shall be utilized for planning and start-up of program delivery.

CFSA will fund evidence-based models or promising practices that allow parents immediate access to concrete resources that can strengthen the family, facilitate collaborative partnerships, and minimize the risk of child maltreatment. Preference will be given to those models that allow for long-term engagement and continued support for families after services have ended. During the period of funding, Grantees shall seek out additional resources to ensure continuity of programs beyond the 3 years awarded.

Applicants should note that initial award levels will decline and non-Federal share match levels will increase in the third year of the three-year grant period; and no more than 50% of the non-federal share may be in kind. See *Section III, Eligibility Information, Cost Sharing or Match*.

Background and Need

CFSA is charged with promoting the safety, permanence and well-being of the District of Columbia's abused or neglected children and their families. We meet our mission by employing high quality social workers that provide assessment, case management and other support services, as well as contracting with a network of private providers and community-based services to provide placement, case management and other supports. Over the last several years, CFSA has substantially improved its performance in all areas. We have increased our focus on permanence for children. We have institutionalized national best practices in areas of Family Team Meetings and Structured Decision Making, and became the first state with a nationally certified State Automated Child Welfare Information Systems (SACWIS) to make the system fully accessible via the internet. Yet, there is still much more to be done for the District's most vulnerable children and their families.

Grant Agreement

Applicant shall be required to sign a Grant Agreement prior to funds being transferred. The Grant Agreement outlines the necessary terms and conditions of the grant award. CFSA reserves the right to require modifications to the program budget prior to award. A Grant Agreement shall be finalized within thirty (30) days of notification of intent to award.

Grant funds under the Grant Agreement shall be dispensed in payments following submission of an approved invoice for payment of grant funds. If the Grantee fails to provide the required documentation within the stated time period, the Grantor may, at its discretion, suspend funding to the program. Invoices must be submitted according to the procedure outlined in the Grant Agreement. Failure to submit invoices as required may result in a delay of payment of grant funds.

SECTION III: ELIGIBILITY INFORMATION

Eligible Applicants

Applications will be accepted only from non-profit, community-based organizations which have demonstrated abilities to meet the needs identified in this RFA, and who are able to commit to

implementing the program measures over the grant period. Governmental organizations are not eligible to apply for funding.

Organizations may partner together to offer separate but coordinated components of the program (for example, in looking to develop a mothers group and a fathers group, or a daytime group and evening group) but must identify a lead Applicant. The lead Applicant will be responsible for identifying how the components shall be integrated, including overall program funding sources.

Successful Applicants shall demonstrate experience with the target population, including parent education or training designed to strengthen and support families and communities, as well as an understanding of child abuse and neglect prevention. Successful Applicants shall also provide services in accordance with all existing federal and District of Columbia laws, rules, and regulations, and consistent with policies, procedures and standards promulgated by the Child and Family Services Agency.

Applicants who hold current Grant Agreements or Contract Agreements with CFSA, or whose members hold current Grant Agreements or Contract Agreements with CFSA, are eligible to apply provided the services do not conflict with a current Grant or Contract Agreement. Such Applicants must identify potential areas of conflict of interest in the delivery of services to children and families involved with CFSA, and demonstrate how services under this funding announcement shall not conflict with or compromise other existing grant or contractual obligations.

Additional eligibility criteria for the **Family-Centered Substance Abuse Treatment and Parenting** program area of the Parent Education and Support Project requires Applicants to be a DC Medicaid-enrolled provider of substance abuse treatment services and hold certification as an APRA certified treatment provider with at least 3-5 years of experience in addiction, prevention and/or recovery services.

Target Recipient Audience

Applicants shall identify the target population to be served by their proposed program.

Family-Centered Substance Abuse Treatment and Parenting

Participants may include male and female parents whose child is the subject of an open child abuse and neglect investigation or ongoing case. All children and adults to be served in this program are residents of the District of Columbia. Eligibility for the program will also be determined by the participants' previous history of substance abuse, history of risk posed to the children, assessment of need for services, recommendations of the assigned social worker or case manager, and approval of the CFSA Office of Clinical Practice. Participants who are dually diagnosed and/or under medication management through a core service agency or other mental health provider will also be eligible. Any person with a pending criminal action (i.e., sentencing, trial, active warrants) will not be eligible. Parents of children with special needs will be considered on a case-by-case basis.

In addition, participating clients must have psychoactive substance dependence as their primary diagnosis, and be receiving or requiring outpatient substance abuse treatment.

The program shall be designed to engage both eligible mothers *and* fathers who would benefit from this program. Applicants are encouraged to propose a program approach that includes outreach to the target populations, including recruitment and retention of program participants, and how any logistical or planning considerations would be met (for example, provision of separate mothers group and fathers group, etc).

Strengthening Families

The target population to be served under the Strengthening Families program will be families with children ages 3-8 years residing in Wards 7 and 8. Some families may be CFSA-involved or have a history of CFSA involvement. Applicants shall describe approach to identify and engage eligible families in services.

Parent Support

The target population to be served under the Parent Support program may include, but is not limited to:

- Parents with disabilities
- Teen Parents
- (Custodial and Non-Custodial) Fathers of children ages 0-5, school-age and high school
- Grandparent Caregivers
- Parents of children who are medically fragile and/or developmentally delayed
- Parents of children with behavioral concerns
- Parents of young children (0-3)
- Parents of youth (9-14yrs; 14-17yrs; 17-21yrs)
- Parents for whom English is not the first language (e.g. Spanish-speaking families)
- Parents with a history of child abuse or neglect
- Other: Applicants may also propose a target group not listed above. Applicants shall demonstrate that the target population is under-served by existing parent education and support models, and that the proposed intervention will meet an identified need for services.

With the exception of the Strengthening Families program which is limited to families in Wards 7 and 8, services may be limited to a particular geographic area (neighborhood or community) or be offered District-wide. Applicants may propose an approach that is one component of a larger program. Applicants will be responsible for demonstrating how the proposed approach will be integrated into the larger program.

The proposed program shall be accessible and flexible to accommodate the needs of participants, including work schedules, child care arrangements and transportation. All individuals to be served under the Parent Education and Support Project are residents of the District of Columbia. CFSA is targeting a minimum of 200 families to be served across the District under the three (3) program areas of the Parent Education and Support Project.

The target population may need support services in the following categories:

- a) Mental health services
- b) Alcohol and substance abuse treatment services

- c) Behavioral and social skills development
- d) Educational/vocational support services
- e) Individual, group and family counseling
- f) Therapeutic recreation
- g) Housing assistance

If the need for any of the above or other services is identified, the program shall advocate on behalf of the parent to secure services.

Need for Funding

The District has one of the highest percentages of children living in poverty (33%¹) and serves far more children in foster care per 10,000 residents than any other jurisdiction. The children in the District's foster care population are older than in most jurisdictions, largely African American (at over 90%, an over representation compared with the District's overall population), and about equally distributed between male and female. The majority of children originate from Wards 7 and 8 – the areas of lowest income in the District. CFSA involved children are at higher risk for poor educational outcomes, health issues, early parenthood, long-term dependence on public assistance, increased rates of incarceration, homelessness and unemployment (CWLA, 2005).

According to US Census bureau data, approximately 2% of all children and youth in the District of Columbia are in the foster care system. As of January 31, 2010, CFSA (and its contracted private agencies to a lesser degree) provided in-home services to 1632 children (in 619 families) found to be victims of child maltreatment but who were able to safely remain in their homes or who were able to safely return to their homes. Overall, a total of 4010 children were placed in out-of-home care or received in-home services from CFSA or private agencies during the month of January. Our approach to service delivery is to strengthen those services and operations that are already in place, to identify additional service and resource requirements, and to develop and implement strategies to better meet the needs of the children and families who enter into, or who are at risk of entering or re-entering the District's child welfare system.

Many families who come to the attention of CFSA need assistance with parenting and related social supports. Referrals to the programs under the **Parent Education and Support Project** may include self-referrals, referrals from CFSA, court-ordered referrals or referrals initiated by community-based organizations.

Services under the Parent Education and Support Project are voluntary and provided at no cost to the participants. Individuals may receive a small stipend for participating in the program but funds may not be used as direct financial assistance for clients. Applicants shall propose a strategy to identify and engage participants in services.

¹ April 23, 2008: Testimony of Natwar M. Gandhi, Chief Financial Officer, Government of the District of Columbia, Hearing on the Mayor's FY 2009 Proposed Budget and Financial Plan.

Cost Sharing or Match

Grantees are required to meet a non-Federal share of the project costs. Successful Applicants will initially be funded for three 12-month budget periods, pending availability of continued funding. Grant funds will be disseminated based on regular invoices submitted by the grantee to CFSA.

Grantees must provide at least 10 percent of the total approved cost of the project for the first and second years of the project period and 25 percent of the total approved cost of the project in the third year of the project period. The total approved cost of the project is the sum of the CFSA share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions. No more than 50% of the non-federal share may be in-kind.

Therefore, a project requesting \$50,000 in CFSA funds (based on an award of \$50,000 per budget period) must provide a match of at least \$5,555 (10% percent of the total approved project costs) in non-Federal funds for a total approved budget of \$55,555 per budget period in the first and second years of the project period. In the third budget period of the project period, a project's non-Federal funds will increase to 25% of the total approved budget period. Therefore a project with a total approved budget of \$55,555 per budget period will be required to provide a 25% match or \$13,889 in non-Federal funds in the third budget period. Grantees will be held accountable for commitments of non-Federal resources even if over the amount of the required match. Failure to provide the amount will result in disallowance of grant dollars.

Cost-sharing will not be used as a preference and/or evaluation criterion in the review of applications. Grant funds should not supplant other State or local funds currently dedicated to these services. Further, Applicants should present a vision for sustaining the proposed project after the period of CFSA funding has ended.

Other

Applicants who hold current Grant Agreements or Contract Agreements with CFSA, or whose members hold current Grant Agreements or Contract Agreements with CFSA, are eligible to apply provided the services do not conflict with a current Grant or Contract Agreement. Such Applicants must identify potential areas of conflict of interest in the delivery of services to children and families involved with CFSA, and demonstrate how services under this funding announcement shall not conflict with or compromise other existing grant or contractual obligations.

SECTION VI: GENERAL PROVISIONS

SECTION VII: PROGRAM SCOPE

Program Description

The D.C. Child and Family Services Agency (CFSA) investigates reports of child abuse and neglect, and provides child protection. Services include foster care, adoption, and supportive community-based services to enhance the safety, permanence, and well-being of abused, neglected, and at-risk children and their families in the District of Columbia. We seek to achieve the highest quality of community-based services, to increase the number of families who receive community-based preventive and support services, and to expand the network of resources providing services to at-risk children and their families.

As of January 31, 2010, CFSA was serving 1632 children in their homes. In an attempt to reduce the number of families becoming involved with CFSA, we envision the development of a network of prevention programs designed to support families who may be struggling with multiple risk factors associated with child abuse and neglect. Offering families immediate alternatives and easy access to services may, over time, contribute to a reduction in the incidence of reports of child abuse and neglect, particularly among populations that traditionally have not been able to access services to meet their needs.

Parent education programs that help parents acquire and internalize the skills necessary to build a healthy family and promote protective factors contribute to positive outcomes for both parents and their children. Although some children, families, and communities face multiple risks, most also have assets and protective factors.² Through analysis of existing research, the Center for the Study of Social Policy (CSSP) identified four family factors that appear to reduce the incidence of child maltreatment: parental resilience, social connections, knowledge of parenting and child development, and concrete supports in times of need. CSSP also identified healthy social and emotional development as a protective factor for children. Research on parent education programs has primarily focused on at-risk and maltreating families. Key program characteristics identified as strong predictors of program effectiveness include a strength-based focus, family-centered or family-focused practice, individual and group approaches, qualified staff, targeted service groups, and clear program goals and continuous evaluation.³

CFSA's *Assessment of District Programs to Prevent Child Abuse and Neglect* (2006) highlighted a need for parent training or education and parent support. Stakeholders felt that the District lacks these programs in general but also lacks programs tailored to the needs of different families. Underserved groups include grandparent-guardians, fathers, teen parents, parents of children with emotional and behavioral problems, non-English speaking families, and parents of older children who are unruly and/or runaways.

To date, a number of evidence-based or promising practice models have been explored, including programs already implemented in other jurisdictions to expand the range of resources available to parents, and to meet the specific needs of different populations. Programs include both out-of-home and home-based services, and range from direct skill training to parents in child behavior management and home safety to prevent child maltreatment, enhancing parent-child communication to reduce risk for adolescent substance abuse, building nurturing parenting skills and culturally-specific interventions.

CFSA proposes to use funds to create the Parent Education and Support Project (PESP). The PESP embraces the philosophy that successful parent education and support can assist parents and caretakers to develop and practice the skills they need to maintain safe and stable home environments for their children, and to reduce the risk of child maltreatment.

Applicants may apply to one or more of the following program areas:

Family-Centered Substance Abuse Treatment and Parenting - Up to \$90,000 available

Target Population: Participants may include male and female parents whose child is the subject of an open child abuse and neglect investigation or ongoing case. All children and adults to be served in this program are residents of the District of Columbia. Eligibility for the program will also be determined by the participants' previous history of substance abuse, history of risk posed to the children, assessment of need for services, recommendations of the assigned social worker or case manager, and approval of the CFSA Office of Clinical Practice. Participants who are dually diagnosed and/or under medication management through a core service agency or other mental health provider will also be eligible. Any person with a pending criminal action (i.e., sentencing, trial, active warrants) will not be eligible. Parents of children with special needs will be considered on a case-by-case basis.

In addition, participating clients must have psychoactive substance dependence as their primary diagnosis, and be receiving or requiring outpatient substance abuse treatment.

The program shall be designed to engage both eligible mothers *and* fathers who would benefit from this program. Applicants are encouraged to propose a program approach that includes outreach to the target populations, including recruitment and retention of program participants, and how any logistical or planning considerations would be met (for example, provision of separate mothers group and fathers group, etc).

Program Description: Grant funds will support intensive outpatient and outpatient substance abuse treatment, with supplemental culturally-specific parenting development and support through an evidence-based model. Applicants shall propose a model of parenting education and support that can be aligned with intensive outpatient and outpatient substance abuse treatment. Examples of the types of parent models are listed below (see **Evidence-based and Promising Practices**).

The substance abuse component should provide chemical dependency treatment at levels of care appropriate to the needs of each client based on initial screening and assessment information. Treatment services should include but should not necessarily be limited to; group counseling, individual counseling, individual and family addiction education, and relapse prevention.

CFSA will seek out evidence-based approaches to treatment, recognizing that the use of a variety of models will expand the population who will access services. Applicants must ensure consistency and confidentiality for referred families and sensitivity to the special needs of abused and neglected children.

Strengthening Families – Up to \$50,000 available

Target Population: The target population for Strengthening Families will be families with children ages 3-8 years residing in Wards 7 and 8. Some families may be CFSA-involved or have a history of CFSA involvement.

Program Description: Grant funds will support the development and implementation of the Strengthening Families model; this family skills training program is designed to increase resilience and reduce risk factors for substance abuse, depression, violence and aggression, delinquency, and school failure in high-risk children and their parents. The model is designed to promote the wellness of young children so they can thrive in safe, supportive environments and enter school ready to learn.

Parent Support – Up to \$195,000 available

The target population may include, but not be limited to:

- Parents with disabilities
- Teen Parents
- (Custodial and Non-Custodial) Fathers of children ages 0-5, school-age and high school
- Grandparent Caregivers
- Parents of children who are medically fragile and/or developmentally delayed
- Parents of children with behavioral concerns
- Parents of young children (0-3)
- Parents of youth (9-14yrs; 14-17yrs; 17-21yrs)
- Parents for whom English is not the first language (e.g. Spanish-speaking families)
- Parents with a history of child abuse or neglect

Applicants may also propose services for a target population not listed above, provided the application demonstrates a need for intervention and the capacity to complete the process. Targeted services may be proposed as one component of the Applicant's overall program. Applicants shall demonstrate how the proposed model will be integrated with the organization's existing services.

Evidence-based and Promising Practices

The Agency will competitively award grants to organizations who meet the service needs of CFSA, and who demonstrate commitment to implementing program measures as long as grant funds continue to be available. CFSA will seek out innovative and evidence-based approaches for each of the PESP program areas, recognizing that the use of a variety of models will expand the population who can access services.

Some of the evidence-based and promising practices which may be funded include, but are not limited to:

- Effective Black Parenting
- Los Niños Bien Educados
- SafeCare
- Strengthening Families
- Staying Connected With Your Teen[®]
- Systematic Training for Effective Parenting
- The Incredible Years[®]
- Nurturing Parenting Programs[®]

We are interested in organizations that can provide services in a variety of ways (for example, community-based), that are targeted, and programs that differ in their intensity. Services must be accessible and provided at no cost to participants. Applicants must ensure consistency and confidentiality for families and demonstrate sensitivity to the special needs of those receiving services.

Grants are capacity-building grants and organizations are required to demonstrate how they will sustain the proposed programs beyond the period of CFSA funding. Grant funding awarded under this project may not be used to supplant existing programs. Applicants must demonstrate how grant funding supports the expansion or enhancement of existing services, or the development of new programs, and meets an identified need in the target population. If the proposed model is one component of a larger program, the Applicant shall clearly describe their overall program budget and demonstrate alternative funding sources.

For the purpose of this initiative, the families receiving services will be monitored to determine whether the services provided have an impact on the incidence of child maltreatment, and parent and child outcomes. Preference will be given to those approaches that demonstrate on-going support for families after initial services have ended. Our hope is that the parents and families who utilize these services will gain the skills and supports they need to maintain safe and stable environments for themselves and their children.

Program Objectives

During the grant period, CFSA and the Grantees shall jointly engage in a programmatic evaluation to determine the impact of services under the Parent Education and Support Project.

Short-term outcomes include sustained engagement of parents in specialized parent education programs and development of ongoing program or peer support post-intervention.

CFSA and the Grantees shall jointly identify indicators to measure desired long-term outcomes. Such outcomes may include:

1. Absence of child maltreatment/involvement with CFSA post-intervention.
2. Increase in child and parental protective factors post-intervention.
3. Satisfaction of parents with the program.

4. Enhanced ability of parents to self-advocate and problem solve, including:
 - Increased communication and positive family interaction.
 - Expanded network of social support.
 - Increase in developmentally and age appropriate parenting skills.

Additional program area specific outcomes include:

Family-Centered Substance Abuse Treatment and Parenting

The short-term outcome of the Family-Centered Substance Abuse Treatment and Parenting program is to enhance parental access to positive adult support through a successful collaboration with substance abuse treatment programs

Strengthening Families

Short-term outcomes include sustained engagement of children and families in the Strengthening Families program, and development of ongoing “booster” sessions or peer support (e.g. parent-run support group) post-intervention.

Monitoring

CFSA shall monitor and evaluate the performance of the Applicant according to the scope of work and related service delivery standards set forth in the Grant Agreement. The Grant Monitor or her designee will make periodic scheduled meetings with the Applicant to discuss the scope of work in relation to the services rendered to the target populations, and the relative success thereof.

Successful Applicants shall participate in CFSA-sponsored activities including, but not limited to, grant entry and exit conferences and an annual Grantee Roundtable. In addition, Grantees shall regularly present to CFSA and community groups on the specifics of their funded programs including status of services provided and outreach to increase client participation.

Evaluation

Applicants shall provide a narrative addressing how the conduct of the project and the results of the project will be evaluated over the three year period. Grantees will regularly update their Grant Monitor about ongoing evaluation activities and findings in required progress reporting. Successful Applicants shall participate fully in any CFSA-initiated or required program evaluations. In each subsequent year, an evaluation of all services provided under the grant agreement during the previous fiscal year shall be completed. Prior to the annual evaluation, CFSA and the Parent and Education Support Project grantees shall jointly define the terms of the evaluation. This evaluation will continue in succeeding periods under the terms of the grant agreement. CFSA may utilize service measures established by the District of Columbia's Project LAUNCH (*Linking Actions for Unmet Needs in Children's Health*)⁴ Cross-Site Evaluation to monitor ongoing service delivery throughout the three year grant period, including the establishment of baseline data and subsequent reporting.

Disciplinary Action

Grantees shall, upon discovery, discipline or terminate any staff found to be in violation of the District's drug and alcohol policy. In addition, Grantees shall document supervisory actions, conferences and personnel evaluations.

⁴ Project LAUNCH is a 5-year initiative funded by the Substance Abuse and Mental Health Services Administration (SAMHSA). The goal of Project LAUNCH is to promote the wellness of young children (0 – 8 years) so they can thrive in safe, supportive environments and enter school ready to learn. Project LAUNCH aims to bring local child-serving agencies together to coordinate and streamline policies and practices for families and children most in need, and to fill service gaps where they exist.
